Create the following TRIGGERS:

1. Create a trigger (**Trigger_Deposit_Bal_Update**) on Deposits table to update OpenBal in Registration table, whenever a person deposits money in the account.

2. Create a trigger (**Trigger_Withdrawls_Bal_Update**) on Withdrawls table to update OpenBal in Registration table, whenever a person withdraws money from the account.

   Make sure to perform OpenBal check before he withdraws money. WAmount should be less than OpenBal
